

HARD HAT

# Update

Issue #15, October 9, 2014

## What's Next?

It's the first week in October, and we are happy to report that the first series of resident moves are complete! Many of you have asked about next steps and what the upcoming months will involve, so this issue is dedicated to sharing next steps in the reconstruction process.

1. We are currently deep cleaning Bluebonnet so that all is ready for our Mesquite residents to transition beginning the week of October 20.
2. Once all of our construction documents are approved by the Department of Aging and Disability Services, we will begin mobilization of contractors and sub-contractors.
3. Once the project start date is scheduled, we will begin reconstruction with the Mesquite Suite.

We are hopeful that by the end of November, we will be wearing our hard hats and looking ahead to the excitement of the new West Center!

We encourage you to drop your questions in our Hard Hat Update Box across from the chapel, so that we share what you want to know in the upcoming issues.

*Best Wishes,*

*Susan Farris, Executive Director*
