## Pardon Our Dust

It is a joyful noise! That is what goes through my mind with each crash or thump I hear as the contractors work directly over my head this week. It is demolition week, and although it is a messy operation, our contractors are to be commended for their good work in keeping disruption (and dust) to a minimum. All of the demolished material is collected in large bins, carefully covered, and rolled out to the dumpster by the most patient workers in the world. What a job! And we thank them for it.

Interior demolition will be completed this week, and work on the north side of the second floor outdoor patio begins next week. The existing brick wall under the overhang is being removed so that the new bay window for the dining room can be constructed. It is all tremendously exciting.

If you have questions, suggestions or concerns, please let us know. You may email or call me or Joey Berck directly, or leave a message for us with the receptionist.

With gratitude for your patience,

*Susan Farris, Executive Director*
